
COOKIE POLICY

Last updated 25 October 2026

This cookie policy explains how DJ Sime uses cookies on this website. We want to be open about how we handle your data, in line with UK privacy law.

1. WHAT ARE COOKIES?

Cookies are small text files placed on your computer or phone when you visit a website. They help websites work and can tell the site owner how the site is used.

2. HOW WE USE COOKIES

The public pages of this website set no cookies of their own: no tracking, no advertising and no analytics cookies. The date check and the enquiry forms work without them.

The only cookie we set is a sign-in cookie for DJ Sime's private dashboard. It is essential, it is only set when someone signs in, and visitors never receive it.

3. THIRD-PARTY COOKIES

Our promo video is shown as a still picture. YouTube only loads when you press play, from YouTube's privacy-enhanced service, and YouTube may then set its own cookies. Links to Facebook, Instagram, Mixcloud, Google and review sites take you to those sites, which have their own cookie policies. We do not control third-party cookies.

4. MANAGING YOUR COOKIE CHOICES

You can choose whether to accept or refuse cookies. Most browsers accept them automatically, but you can change your browser settings to refuse them.

5. CHANGES TO THIS POLICY

We may update this policy to reflect changes to the website or to data protection law. Any update will appear on this page.

6. CONTACT US
